TOMBSTONE, COCHISE COUNTY, ARIZONA--SUNDAY, OCTOBER 3, 1909

NO 11

FINAL DAY OF COURT SESSION

Adjournment Had Until 25th for Opening of Regular Term--Mining Cases Postponed

DIVORCE GRANTED--COURT ORDERS ENTERED

The April term of the district court was adjourned this afternoon and there will be no further session of the district court until the regular October term opens on Monday morning, the 25th inst.

The attention of the court yesterday and a part of the forenoon today was taken up in the trial of the case of William Blackburn vs. the Calumet & Arizona Mining company and others. It was discovered this morning that it would be impossible to finish the case today and it was ordered continued until the 25th of October. There are some thirty odd witnesses in the case and only five had been on the stand up to the time adjournment was taken. The case will have the right of way when court reconvenes and will only be side tracked on that day for the empaneling of the grand jury.

An order was entered in the case of Wilson vs. Shropshire, dismissing the

appeal, which was brought up from Judge Rice's court at Douglas.

A decree of divorce was granted to Gladys Evans from David Evans. The plaintiff is a resident of Douglas.

The case of the Bequillas Land & Cattle company vs. Joseph Curtis et al, which has been standing on the court docket for a number of years, was ordered dismissed. The case involved the question of rental.

Judge Doan and Court Reporter Walker will leave tomorrow evening for Nogales, where they will open court on Monday morning and will be there until the 25th inst, when they will return here.

"Electric Hare" Racing in Arizona

O. P. Smith has gone back to Los Angeles after securing a \$50,000 capitalization in Arizona to operate his "electric hare" invention, a form of greyhound racing, on a circuit of cities in this territory comprising Tucson, Phoenix, Douglas and Bisbee. The "electric hare" is a sort of a rotary racetrack on which live greyhounds chase a stuffed hare under mechanical arrangements somewhat similar to that used for the chariot race in the play of "Ben Hur."

Mr. Smith expects to have his amusement place in operation in Tucson by Nov. 15.

A number of fast dogs will be brought there, but no betting on the race will be allowed. Mr. Smith will return to Tucson Oct. 15 to complete arrangements for the opening of his attraction. The company operating the "electric hare" contrivance has the rights to the invention in Arizona, Sonora and Sinaloa.

Greene to Finish His Redlands Mansion

Colonel W. C. Greene, once known as the "Copper King of Arizona," is to finish work on his mansion at Redlands, Cal., according to advice from that city.

Building Inspector Grates and contractors at Redlands, it is said, have been notified that work will be resumed soon on the Greene residence, situated on the heights, adjoining Smiley park. Work was stopped when the Greene properties became involved in the panic in 1907. The house was scheduled to cost \$500,000. About \$75,000 has been expended to work, and an additional \$100,000 in orange acreage around the property.

Arizonan Drew Land in Montana

To claim his homestead in the Flat-head Indian reservation in Montana, in which he drew No. 428, Constable W. D. Kern of Fish Creek, on the Roosevelt road, left Phoenix last night for Billings, Montana, from where he will go out to reservation. The drawing took place on August 5 and Kern was one of several Arizonans who were fortunate enough to get low numbers on one of the three reservations that were thrown open. Kern stated that he considers his homestead worth at least \$30,000, that being the estimated value of any number under 1000. No 1 got a homestead on which a value of \$40,000 was placed. At one time Kern was a soldier, hence he was not compelled to be on the ground when the drawing took place.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & Co., Toledo, O.
We the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by him.

WALDRON, KINSMAN & MARTIN, Wholesale Druggists, Toledo, O.
Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surface of the system. Testimonials sent free. Price 75 cents per bottle. Sold by all druggists.

As the Twig Is Bent the Tree Is Inclined

It is the wish of every patriotic parent that his child should stand in the front ranks of the business world. To get these results the teacher, the parent and the child must work together. Open mutiny with the school means hindrance to the child to attain this high standing. There should be close unity. Consult freely on these subjects which will largely determine the welfare of the future of the child. If your child is not doing well in school it is your duty to see the teacher and help her to devise plans which will remedy the evil. Don't pour out your wrath on the teacher at the supper table in the presence of the children. It only means that your children will repeat what you say for them. They will have no confidence in the teacher, cause trouble in school and lose all interest in learning. If the evil exists in school see the teacher and it will be made right.

Twentieth Century Medicine.
Cascarets Candy Cathartic are as effective as ancient pill poisons and act upon the system as the electric light of a tallow candle. Genuine stamped C. C. C. Never sold in bulk. All druggists, see.

Frank Merrill Passes Away

Frank Merrill, a well known Tombstone resident, died this morning. He deceased was 56 years of age and was among the early arrivals in Tombstone. He was taken ill several months since, suffering from partial paralysis, from which he did not rally. At times a slight improvement was reported in his condition, but he was left practically bedridden and despite all that medical attention could do succumbed to the inevitable.

The deceased was well known throughout the county, having worked in many mining camps of the south west. He leaves a wife, who lives at Reno, Nev. The funeral will take place tomorrow at 2:30 p. m., from the undertaking parlors of B. C. Tarrill, and friends and acquaintances are invited to attend.

Will Hunt Big Game in Northern Arizona

A Flagstaff dispatch says: Post master General Hitchcock, Cecil Lyon, national committeeman from Texas, and Ralph Cameron, congressional delegate from Arizona, will meet here tomorrow to go to Holbrook, where they will be joined by Hovall Smith, territorial chairman of the Republican central committee of Arizona, in a big game hunt in Northern Arizona.

TERRITORIAL HISTORIAN APPOINTED

Miss Sharlot Hall Receives Honor at Hands of Gov. Sloan

Having served but six months of the four year term to which he was appointed by Gov. Kibbey, Territorial Historian Mulford Winsor was removed from office by Gov. Sloan and Sharlot Hall of DeWey, Yavapai county, appointed to succeed him.

Winsor was recently requested by Gov. Sloan to resign, but refused and was removed. Sloan asserting his prerogative under an Arizona statute that grants governors wide power to remove officials for the good of the service.

No charges were made against Winsor, and his ability to write Arizona's history in an able manner has never been doubted by anyone, not even Gov. Sloan, as far as can be learned. Of all the eligible men in the territory, Winsor was considered one of the most competent.

Sharlot Hall, who succeeds Winsor, is well known in Arizona, having served as one of the clerks in the legislature two years ago. For several years she has been engaged in short-story writing on subjects dealing mostly with incidents of interest in the southwest.

For the past week it has been known to several that Winsor was to be removed today and his place given to Miss Hall by Gov. Sloan, both being residents of Yavapai county.

Gov. Sloan is understood to take the position that he was not in the least bound by Gov. Kibbey's action, and that the wish of the representatives of the people in the last legislature that Winsor be his orator can be disregarded without any fear of censure or breaking of implied promises.—Phoenix Democrat.

HAY SEASON IS HERE

Hundreds of Tons in Sulphur Spring Valley

HAS BUMPER CROPS

Past Rainy Season Make Prolific Harvest Possible

Bumper crops in the Sulphur Spring valley are the reward of the rancher who planted this his first crop on the valley homestead. Not in 12 years has there been such a crop of grass in the valley. Rain began falling the first week in July and has continued till September's last week, sending the moisture several feet into the ground to be retained for some months to come.

The haymakers are busy throughout the length and breadth of the valley. Ranchman Sharkey, four miles from Courtland, is putting up 100 tons of hay, most of which will be baled for market. This same ranchman has 20 acres of sorghum, which was planted thick for fodder, and will bring at least

\$15 per ton, also several acres of beans, all of which has been grown without the aid of irrigation.

Ten miles south of Courtland G. I. Van Meter has 70 acres of alfalfa. Part is on irrigated and part on unirrigated land.

Is Among the Prize Winners

Several specimens of corn left at THE PROSPECTOR office today by J. J. Mills are certainly prize winners, the product coming from the H. T. Fisher ranch, located between Tombstone and Fairbank. The ears are of mammoth size while the kernels are of extraordinary large grain, the whole exhibit amazing all who view same and take a pardonable pride in knowing that it is a product of Cochise county.

In order to satisfy a judgment against Jacob Pittsburg and in favor of E. G. Riley seven lots in the Baker-ville townsite were sold this afternoon at sheriff's sale and bid in by the Miners' and Merchants' Bank of Bisbee. The property brought \$134.75, which will cover the amount of costs and satisfy the judgment.

The following marriage licenses have been issued out of the probate court during the past week: William Cole of Tombstone, to wed Willie Johnson of Bisbee; H. D. Gooding of Naco to wed Ruby A. Brown of the same place; Forest Owens of Douglas to wed Annie Howard of Coconino, Texas; Josie G. Radia of Bisbee, to wed Virginia Abita of the same place.

FOR SALE—Horse and buggy; horse good saddle; price reasonable. See Ned White at county jail. 3t

NOTICE FOR PASTURAGE
Good pasturage may be had for horses or cows, at reasonable rates, by applying to James Lamb, Tombstone.

PAYMENTS MADE IN TOMBSTONE

Valuable Courtland Property Taken Over By C & A Co--Final Payments Made Here

OTHER GROUPS UNDER BOND MATURING

The final payment of the April Fool mining claim in the Courtland district, which has been under bond to the Calumet & Arizona Mining company, from L. D. Shattuck since the month of April, 1908, was paid into the First National Bank of Tombstone this morning to the credit of Mr. Shattuck. The optional price was fixed at the sum of \$8,500 and payments have been made from time to time by the company, up to today at which time the final payment of \$1750 fell due and the money was forthcoming.

The company has been doing some extensive development on the April Fool claim since they acquired the option and have sunk a shaft to a depth of 300 feet besides running a

number of crosscuts and at present are cutting a large sized pump station on the 500 level and will shortly install a set of large pumps. In doing the development work several small bodies of sulphide ore have been encountered and the present indications are that the April Fool will develop into one of the best producers in the Courtland district. The fact that the Calumet & Arizona Mining company continues to take up its options on the properties in that district shows that they have faith in the future of the camp. The company has a number of other options that will expire between now and the first of the year and there seems at present but little doubt but what they will be taken up, the principal one being the option on the Maid of Sunshine and King Solomon claims that belong to the Leadville Mining company and on which the final payment of \$100,000 falls due this month.

Mr. Shattuck, to whom the payment was made today on the April Fool is repaying his just rewards of a number of years hard work and labor that he put in around the Turquoise district having faith in its future. He now will realize a comfortable fortune. He has already received considerable money from some of his holdings in that district and has others that are under option from which he will receive additional payments.

Mr. Shattuck has been located in the Turquoise district for over ten years and has witnessed its advance from a few prospect holes to a thriving community and a number of large mining works and shipping mines. He has been in the city during the past week in attendance as a witness in a number of the cases that were on trial in the district court, but left today for his home at that place.

CORPORATIONS FORMED IN ARIZONA

List of Over 30,000 to Be Registered by Government

The copy lists of the corporations of Arizona, some 30,000 in number, of which in the employ of the department of internal revenue will be engaged at the territorial secretary's office for the next four or five months. This report is being compiled under the corporation tax law passed by the last congress and similar work is going on in all states. The name, place of business, capitalization of the corporations are taken. The report will go to the treasury department of the United States.

Lady Typo Who Is a Record Breaker

Miss Daisy McCullom is a Tombstone visitor from Safford, the guest of Mrs. Sheldon Ijames. Miss McCullom bears the distinction of being one of the few lady typists in Arizona. The clever young lady has a record of setting more "ems" than the average case-hardened typo-tourist is capable of putting together and is the pride of the profession. Miss McCullom paid THE PROSPECTOR a pleasant visit today and felt quite at home in the composing room. The young lady holds a position on the staff of the Safford Guardian.

Yale Graduates to Meet President

Yale graduates from all over the southwest, including several from Arizona, are planning to gather in El Paso on October 16 to greet President Taft, one of the famous men the university has turned out. William P. Blake, Arizona's territorial geologist, a graduate of Yale '52, will probably be in El Paso from Tucson to aid other Yale alumni in giving the yell of Old Eli as they welcome President Taft.

Files Suit for \$5,000 Damages

Martin O'Hare, through his attorneys, Messrs. Pickett & Bowman, this afternoon brought suit in the district court against the City of Bisbee for damages in the sum of \$5000. The complaint alleges that on or about the first day of September and since that time the defendant has entered upon the property of the plaintiff in Tombstone Canyon, known as the Name mining claim, and dug up, tore down and removed plaintiff's stone wall which plaintiff had constructed along the south line of the Tombstone Canyon road or street. Mayor Nune being in the city was served with a copy of the complaint before he took the train to Batavia. He will turn the papers over to City Attorney Sutter upon his arrival in Bisbee and the answer of the city filed in due time.

WANTED—Success Magazine requires the services of a man in Tombstone to look after expiring subscriptions and to secure new business by means of special methods unusually effective; position permanent; prefer one with experience, but would consider any applicant with good natural qualifications. Address, with references, R. C. Peacock, Room 102 Success Magazine Bldg., New York.

Wanted Your Remedy With Care. Carefully Examine, Don't Give Up. Follow, at the U. S. C. C. Co. in Tombstone, Ariz.
